Tuesday Morning, June 16. The Telegraph.

The Telegraph brings us but a meagre batch of news this morning. Indeed, for some days past, the wires have worked badly, or the operators grown lazy. Wherever the fault is, we hope that it may be rectified without dolay. The Milwankee Press pay enough for reports now-a-days to be entitled to a good article.

Minnesota R. R. Land Grant. We are happy to learn from gentlemen who returned from Minnesota to this city yesterday, that the organization of the companies, who are the recipients of the Public Lunds granted by Congress to Minnesota in aid of certain Railroads, has been perfected, and that the result is as favorable as could be wished to the interests of our State and city. The Southern Minnesota R. R. Company, which owns the most valuable por tion of the Lands, and connects with the Milwanwankee & La Crosse Rairond, at La Crosse, is, in effect, under the control of the same gentlemen who have charge of the latter enterprize. Our city cannot fail to derive the most important ad vantages from this fortunate disposition of the Minnesota Land Grant, and Minnesota herself

will be equally benefitted. Fourth of July.

The arrangements for celebrating the approach ing National Holiday, in this city, with proper eclat, are making good progress. The Finance Committee, tho' they have called, as yet, upon small portion only of our citizens, have raised \$600, and hope to obtain as much more. They have already appropriated \$500 for Fire-works, and \$250 for Powder and Music. It is further proposed to appropriate \$20 or \$25 to each of our Fire Compa nies, to defray the expenses of decorating their apparatus. The rest of the Fund will be expended in whatever way may seem best calculate to add to the Celebration,

The turn out of the Military, Firemen and Civic Societies, will be much larger than ever yet known in our city, and the procession will, no doubt, exceed, in number and appearance, anything that has been seen in our City. The differen engines will be drawn by four, or six horses, and will be instefully adorned; while the members of the several Companies will be rigged out in their best. The selection of the two speakers is guarantee that we shall have good orations. The supply of Fire-works will be ample and the show brilliant. We anticipate, in short, altogether the finest and most successful celebration of the National Birthday that we have ever had here.-We are glad to be able to add, for the information of our country friends, whom we hope to welcome to our city by thousands on the Fourth, that all the Rail Road Companies will run Excursion Trains, at half the usual rates of fere. The general programme of the Celebration, as we as the running arrangements of the several Rai Roads for the day, will doubtless soon be mad-

CTIC TEMPERATURES-BAYARD TAYLOR. The N. Y. Tribune of Friday last contains a other letter from BAYARD TAYLOR, written at Stockholm, on the 16th of February, after his return from his northern journey. This journey occupied two months, during which time he travelled 2,200 miles; 250 by reindeer and 500 within the arctic circle. A part of the time the weather was terribly severe, and the travellethus sums up his experience of the several degrees of cold:

Most of our physical sensations are relative and the mere coumeration of so many degrees of heat or cold gives no idea of their effect upon the system. I should have frozen at home last the system. I should have frozen at home last Winter at a temperature which I found very comfortable in Lapland, with my solid diet of meat, and butter and my gaments of reindeer. The following is a correct scale of the physical effect of cold, calculated for the latitude of 65 deg. to 70 deg. north.

15 deg. above zero—Cupicasansiy water Zero—Mild and agreeable. 10 deg. below zero—Pleasantly fresh and bra

cing. 25 deg. below-Sharp, but not severely cold,-

25 deg. below—Sharp, but not severely cold.—Keep your fingers and toes in motion, and rub your nose occasionally.

30 deg. below—Very cold; take particular care of your nose and extremities; eat the fattest food and plenty of it.

40 deg. below—Intensely cold; keep awake at all hazards, muffle up to the eyes, and test your circulation frequently; that it may not stop somewhere before you know it.

where before you know it.

50 deg. below—A struggle for life. A record of the temperature, for each day, the

observations being taken at morning, noon and evening, is annexed to the letter. It shows that from December 21 to February 14, the mercury was above zero, during 20 of the 56 days; that the extremes of cold were on the 3rd and 5th of January, (33 degree below zero,) on the 9th (44 degrees below,) and for the five days commencing with the 25th and ending with the 29th of January, during which the themometer indicated a steady cold of from 35,40.50 degrees below zero. The mercury froze on three of these bitter days. Mr. Taylor bore the fatigue and exposure of his winter journey well, and returned Sept. to Stockholm in fine health.

INTERESTING TO BILL HOLDERS -John S. Dye, editor of Dye's Wall Street Broker, recently transmitted to the Herkimer County Bank two March, mutilated bills for redemption. The Cashier refused to redeem them, basing his refusal upon the fact that the names of both the Cashier and President were torn off, though the Register's name and the stamp of the Comptroller's office were still visible. Mr. Dye then sent the bills to the State Comptroller, who decided that the bills must be redeemed by the bank, as long as the Register's name and the stamp were on them even though the names, of the officers of the bank be obliterated, or torn off.

GREAT MOVEMENT OF ENIGRANTS. The Roel ester Union says the steamer Northerner arrived | Scott case, is likely to be a useful one. The at Charlotte at 10 o'clock Wodnesday morning Bangor Whig gives the following report of a from Ogdensburgh with over, one thousand passongers. About one hundred were cabin passengers, the remainder were Norwegian emigrants bound for Milwaukee. These emigrants came by the way of Quebec and Montreal. They are taken from Montreal to Lewiston by the American Steamboat Company, and thence go by the Great Western Railway to Detroit. Among those persons were 360 who left a single village in Norway. They appeared to be healthy and a hardy race of people.

DEATH OF BISHOP PHELAN. The Right Roy. Dr. Phelan, Roman Catholic Bishop of Kingston, Canada, died in that city on Monday. He took severe cold while attending the funeral of the late Bishop Ganlin, and only held the see of Kingston about twelve days.

The S. & M. R. E.—A stroll along the line of the Railroad as far as Seeley's Bluff, on Wednesday last, convinced us that Mesers. Qualey & Murphey were pushing the grading forward as a nailer,' working its way the second time through the bluff, being now on the grade. It kapt about 15 men, 12 horses, and 25 cars on the spring to carry off the piles of clay and gravel that it scooped up with apparently so little effort.

The bridge across the river East of Sceley's Bluff, being built by Mr. Collins, was up and nearly completed ready for the track. It is an elegant structure of 155 feet span, some 12 feet above the water, and looks strong enough to sustain a weight of several hundred tons.

We are also indebted to Kempshull for the four volumes above named, belonging to the beautiful edition of Walter Boott's Novels, which Ticknor & Fields, of Boston, are publishing. This "Household Edition" of the work of the mighty Wisard of the North must become very popular. The volumes are of a convenient size, beautifully printed on fair white paper, and handsomely (not gaudily) bound

we notice that the publishers say that the author is "one of our most gifted female poots." We have not been while to persse the book anyet sufficiently to speak of its mer-

is. The publishers any of it:

It is a story of strong interest, in which the element of affection is prominent. Like D'lack attables works, love, intense and pervading love, forms the cents of the story, round which living and acting figures are but the materials which fill out the picture.

THE SPEECHES OF HENRY CLAY; edited by Calvin Cotton, L. L. D.: in two volumes. A. S. Barnes & Co., N. Y., Dr. Couron, in the volumes which he has afreedy published, and which are now passing through the pross, has raised a monument to the memory of Hanny Clay, better and more enduring than marble. His first two volumes, published in 1846, entitled The Life and Tomes of Henry Clay, and bringing the record down to 1844, had a very wide circulation. A third volume, containing the record to Mr. Clay's death, was afterwards prepared, afspeeches, carefully arranged, with historical introduc-

To complete the set of six volumes, than which no more valuable ones can be placed in the library of an American eltizen, one more volume, containing the "laverite correspondence" of Mr. Clay has been issued, and for this the aditor enjoyed every possible facility, and

A uniform edition of the six volumes is to be published for subscribers on the list of July, as we gather from a circular of the publishers. We have from Winicalarn & Do., the two volumes of the "Speeches," and those who

BODY OF A CHILD FOUND IN THE LAKE .-- Yes-Lake, which proved to be that of a German Emigrant family who had just arrived in this city, and were on their way to the western part of the State. The child died at Chicago, and the mother carried it in her arms to this city, and upon bringing it into a boarding house a dis agreeable smell was discovered by the inmates, who made enouiry and found that it proceeded from the body of the child, which was turning putrid. They then turned the family out, and the mother thon carried the corpse to the

Lake and very coolly pitched it in. The police, on fix ding that the body belonged to them, arrested the whole family, but upon investigating the matter, they let them go on their way, and had the body interred in the poor house burial ground. The mother said she had seen dead bodies thrown everboard, from the ship in which she came over, and supposed that that van the manner la which bodies were interred in this

INFANTICIDE. The body of a child, which was Walker's Foint Bridge a short distance, on Sanday night, It appeared to have been in the water three or four days, and its head was horribly mutilated, and nearly severed from the body, which was entirely naked. This was probably the child of some disceptiable, and brutal fe-male, who murdered her offspring to get it out of her way. Within two weeks, two cases of infanticide have happened in our city, without the oriminate being The body of the child was interred in the poor house burist ground.

THE COMET.-According to the philosophers the Comet was to have knocked this good world of ours inte "a cooked hat," on Saturday has, but as near as we can ascertain, nothing of the kind has happened yet.-Whether the fault is with the Comet, or the Philosophers it is hard to tell, but certain it is that Comet speculation will be below par hereafter. It is said that some sharp diamolers sent into the largest kind of speculations on the strength of the Comet's coming before pay day! It is al-so reported that many people held back from paying their newspaper bills, in hopes that the Comet would " square up I" This, undoubtedly, is the reason why money has been so searce of late, and now that the comet has gone. it is reasonable to suppose that the " tight times" will go

BOOKS AND STATIONERY .- We had barely room yesterday morning, to acknowledge the receipt of a package of stationery from the elegant and extensive bookstore of ETRIBELAND & Co. The following note acompanied the gift and sets forth, in brief terms, the at

tractions of the stock:

To the Editors of the Scotinei:

We have a very large and well selected stock of Writing paper, of every kind and quality in demand, (we send a few samples,) and propose to pay especial attention to that branch of our business.

We buy direct from the manufacturers or importer, and are thus onabled to sell at very low rates.

The Writing Finds we send (Conger & Field's) will, we think, compare favorably with any other manufacture in the world. It possesses the excellent limpid quality and permanency of volor of the celebrated Annold's price. We have been appointed Agents by the manufacturers, and are solling the various sizes and celors at the New York wholesate price.

The pen we send, (Perry's No. 27.) pleases more cusion. and are selling the various bases and vertex.

York wholesate price.

The pen we rend, (Perry's No. 27,) pleases more customers than any pen we have ever dealt in, and is said to be very good for writing "pulls."

We claim to have the best general Book and Stationers who will try na, that we can save money by becoming a customer.

Yours, truly.

BTRICKLAND & CO.

FAST .- The Propeller Bay, State of the Nortern Teansportation Company, arrived at this of by yeslerday morning with a cargo of merchandise, which was but fourtren days coming through from New York. This is decidedly fast, and Messrs. Barclat, Kall & Co., who re the agents for this city, say that they mean to get all boods shipped by this line, through from N. Y. in from twelve to fourteen days. Of course it will be an advan-

lage to merchants to get their goods through in 10 to 15 days faster than is usually done. NEW ARRANGEMENT .- By an edvertisement it will be seen that the Milwaukes & Chicago and Racine & 50 ... BPIRITS MITTED BISS. B. R. have made an arrangement to take effect on and after, the 18th inst, by which passengers by taking 5 bbls BLUE VITROL. the \$:45 train from this city, can make a connection at

Detroit, June 6th 1857. WALL the City Auctioneer is going to have a great sale of New Fresh Dry Goods this marning. The sale takes place in the Brick Store, No. 171, East Water Street, opposite FRIEND & BRO.'s Clothing Store.

Beautiful! Beautiful! is the exclamation of every one who visits the Glass Blowing; and no won-der, for the glassy creations which fails from the Professor's hand, as if by magic, need only the breath of life, so perfect is their form and feature, to make them recog-nized as the work of some superior being. Recollect to day and Wednesday are the last days of the Professor in this city. Ladies wishing Giass Toys, and others who wish to see the process of Glass Blowing and spinning will pleaso take notice.
